SUMMARY

- Frontend Engineer (fullstack-capable) focused on building and shipping production-ready web applications using React, Next.js, and TypeScript.
- Built and deployed real-world products including fintech and communication platforms, taking ownership from UI development to backend integration.
- Comfortable working in fast-paced environments, iterating quickly, and solving real user problems.

EDUCATION

Obafemi Awolowo University – Ile-Ife, Nigeria

February 2020 – August 2025

B.Sc in Computer Science with Mathematics

- Learned the principles of system design, user interface development, and efficient programming practices.
- Studying core areas of software engineering including data structures, algorithms, operating systems, and database management.
- Gained experience in building web applications and applying mathematical concepts to solve computational problems.

Federal School of Statistics – Ibadan, Nigeria

September 2015 – June 2017

National Diploma in Computer Science

- Acquired foundational knowledge in programming using Visual Basic and introductory Java.
- Studied digital electronics, statistical theory, and system analysis, combining both technical and analytical thinking.
- Learned core concepts of software design, data processing, and computer hardware maintenance.
- Completed coursework that built a strong base in computing logic, structured programming, and statistics.

Education Minister of the Computer Science Department

Federal School of Statistics – Ibadan, Nigeria

October 2016 – June 2017

- I took tutorials for both ND 1 and ND 2 on the department course works.

WORK EXPERIENCE

Software Engineer

May 2026 - Present

PharmacyOS Technologies Limited

- Building a pharmaceutical solution with an amazing team.

Software Engineer

January 2026 - Present

Next Switch Limited

- Worked on fullstack projects such as [DGNRAVEPAY](#), [DGNRAVECHAT](#), [DGNRAVEVERIFY](#)

Software Engineering Intern

April 2024 - September 2024

ByteLabs Technologies

- I did my 6months Industrial Training at ByteLabs Technologies where I got to know more about industry standards about software development.

- I worked on different landing pages of their solutions using ReactJs and NextJs.

Frontend Developer Intern

May 2022 - August 2022

Zuri Team – Remote

- Worked across frontend and backend teams to build a file-splitting platform for CSV and JSON data.
- Built and styled pixel-perfect websites using React.js, Styled Components, and Tailwind CSS.
- Managed GitHub repositories, pull requests, and code conflict resolution.

VOLUNTEER ACTIVITIES

Media Lead, STEMCon

April 2025 - April 2025

I oversaw visual communications and media strategy to enhance outreach and attendee engagement.

Media Lead, Build with AI Conference, GDG

May 2025 - May 2025

I led the media team for the GDG Build with AI Ile-Ife event, coordinating design, content, and live coverage to support event success.

SKILLS

Languages & Frameworks:

JavaScript, React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS, Python, React Native, C

Tools & Platforms:

GraphQL, Git, GitHub, Supabase, Firebase, Netlify, Vercel, Docker, REST APIs, WordPress

Soft Skills:

Problem-Solving, Communication, Teamwork, Time Management, Critical Thinking, Agile Collaboration

INTERESTS

Technology

Tourism

Africa

LANGUAGES

English - Expert

Yoruba - Expert

French - Beginner
